DOCKET NO. DK2018-068

IN THE MATTER OF § TEXAS BOARD OF
THE LICENSE OF § VETERINARY
CHRISTOPHER GLEASON, D.V.M. § MEDICAL EXAMINERS

AGREED ORDER

On this day the Texas Board of Veterinary Medical Examiners ("Board") considered the matter of the license of Christopher Gleason, D.V.M. ("Respondent").

Respondent, without admitting the truth of the Findings of Fact and Conclusions of Law set out in this Order, waived notice and hearing and agreed to the entry of this Order. Accordingly, the Board makes the following Findings of Fact and Conclusions of Law and enters this Order as set forth below.

FINDINGS OF FACT

1. Respondent, Christopher Gleason, D.V.M., of Duncanville, Texas, holds Texas veterinary license 6002.

2. On May 30, 2017, Ronald B. Parrish, Jr. presented his six (6) year old male Shih Tzu, Diesel, to Respondent at Animal Care Center in Duncanville, Texas ("the facility"). Diesel was lethargic, vomiting, and unable to eat or drink. Respondent examined Diesel and recommended treatment for acute, non-specific gastritis. Mr. Parrish agreed to the treatment. Diesel was given subcutaneous (SQ) injections of 5mg famotidine, 15.4mg Cerenia, and Ringer’s lactate. Diesel was discharged with a sterile 22-gauge intravenous (IV) catheter in place, and Respondent advised Mr. Parrish to return Diesel to the facility the following day for further treatment and evaluations.

3. Later that day, Diesel had what appeared to be seizures and began to urinate on himself. Mr. Parrish unsuccessfully attempted to reach Respondent by phone, and at 4:40 p.m. returned Diesel to the clinic where he was again seen by the Respondent. Respondent re-examined Diesel, and performed urinalysis and a fecal exam which showed no abnormalities. Bloodwork was performed which found abnormalities in Diesel’s white blood count, hematocrit, sodium and globulins. Respondent administered IV fluids, SQ injections of 1mg midazolam and 22.7mg enrofloxacin, and 2mg Dexamethasone IV. Respondent discharged Diesel later that day with instructions to return the following morning. Respondent did not offer referral to an emergency or overnight facility for further treatment or monitoring.

4. On June 2, 2017, Diesel was referred by another veterinarian who diagnosed Diesel with Immune-Mediated Hemolytic Anemia (IMHA), sent Diesel home with Prednisone, and told Mr. Parrish to return every other day to monitor his platelet and blood cell counts. On June 5, 2017, Diesel’s condition continued to decline and Mr. Parrish elected euthanasia.
CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Chapter 801, the Board has jurisdiction over this matter. Respondent is required to comply with the provisions of the Veterinary Licensing Act, Chapter 801, Texas Occupations Code, and with the Board’s Rules. Respondent received notice as required by law.

2. Respondent has violated Board Rule 573.24, Responsibility of Veterinarian to Refer a Case, of the Board’s Rules of Professional Conduct.

3. Respondent has violated Section 801.402(6) of the Veterinary Licensing Act, Texas Occupations Code.

4. Respondent is subject to disciplinary action under Texas Occupations Code, Sections 801.401(a), and 801.451.

5. Pursuant to Board Rule 575.25, Respondent’s violations are Class B violations, and Respondent is subject to disciplinary action under that Rule.

Now, therefore, the Board and Respondent agree to the following terms:

1. REPRIMAND
   a. Respondent is hereby informally reprimanded by the Board. This informal reprimand will not be published in the Board’s newsletter and will not be routinely reported to the American Association of Veterinary State Boards (AAVSB) for inclusion in the national reporting database. The effective date of the terms of this Order shall be the date it is adopted by the Board, unless stated otherwise.
