II.

On or about February 23, 1988, Tom Cheshire, Investigator, State Board of Veterinary Medical Examiners, inspected the patient records corresponding to the Talwin aka Pentazocine Lactate Solution, and found the Respondent has failed to maintain adequate patient records reflecting the use of this drug.

III.

The Respondent administered the Talwin listed in Paragraph I of this complaint as a training aid in horses. Utilization of the Talwin as a training aid is not therapeutically indicated.

IV.

By failing to maintain adequate inventory records at his place of business for the Schedule IV Controlled Substance listed in Paragraph I of this Complaint, the Respondent has violated Article 7465a, V.A.C.S., Section 7(b), Veterinary Practice Act which states:

Article 7465a, Section 7(b), Veterinary Practice Act - The Board may require its licensees to maintain a record-keeping system for certain controlled substances prescribed by the Board that includes the quantities and date of purchase, quantities and date dispensed, quantities and date administered, balance on hand, the name and address of the client and patient receiving the drugs, and the reason for dispensing or administering the drugs to such patient. The records are subject to review by law enforcement agencies and by representatives of the Board. A failure to keep such records shall be grounds for revoking, cancelling, suspending, or probating the license of any practitioner of veterinary medicine.

V.

Through failure to maintain adequate patient records to substantiate use of the Controlled Substances listed in Paragraph I of this Complaint, the Respondent has violated Rule 32 of the Rules of Professional which states:
Rule 32 - Individual records will include, but are not limited to, identification of patient, patient history, including immunization records, dates of visits, x-rays, names and dosages of medications administered and/or dispensed, and other details as necessary to substantiate diagnosis and treatment.

Patient records shall be maintained for a period of three years and are the responsibility and property of the employing veterinarian.

VI.
By administering the Talwin listed in Paragraph I of this complaint when not necessary or required for the care of animals, the Respondent has violated Rule 33 of the Rules of Professional Conduct which states:

Rule 33 - It shall be unprofessional and a violation of the Rules of Professional Conduct for the veterinary profession for a veterinarian to prescribe, provide, obtain, order, administer, possess, dispense, give or deliver to or for any person, narcotic drugs, dangerous drugs, or any controlled substances that are not necessary or required for the care of animals, or where the use or possession of such drugs would promote addiction thereto. For purposes of the rule the term Narcotic Drugs, Dangerous Drugs, and Controlled Substances, shall mean those which are defined and recognized as such by any law of the State of Texas or of the United States.

VII.
The Texas State Board of Veterinary Medical Examiners has grounds to take disciplinary action against Dr. Salas' veterinary License under the Texas Veterinary Licensing Act, Article 7465a, V.A.T.C.S., Section 14(c) and (e) which state:

Article 7465a, Section 14(c) and (e), Veterinary Licensing Act - "... the Board may revoke or suspend a license, place a person whose license has been suspended on probation or reprimand a licensee, ... if it finds that an applicant or licensee: (c) has engaged in dishonest or illegal practices in or connected with the practice of veterinary medicine; or (e) has engaged in practices or conduct in connection with the practice of veterinary medicine which are violative of the standards of professional conduct as duly promulgated by the Board in accordance with the law."
The foregoing complaint is submitted to the Secretary of the Texas Board of Veterinary Medical Examiners on this the ___ day of May, 1988.

Further, Affiant sayeth not.
