DOCKET NO. 2005-45

IN THE MATTER OF § TEXAS STATE BOARD OF

THE LICENSE OF §

ANGUS MACDONALD, D.V.M. § VETERINARY MEDICAL EXAMINERS

AGREED ORDER

On this the 9th day of June, 2005, came on to be considered by the Texas State Board of Veterinary Medical Examiners ("Board") the matter of the license of Angus MacDonald, D.V. M. ("Respondent"). Pursuant to Section 801.408, Texas Occupations Code and Board Rule 575.27, an informal conference was held on May 5, 2005. The Respondent attended without counsel. The Board was represented at the conference by the Board’s Enforcement Committee.

Respondent, without admitting the truth of the findings and conclusions set out in this Agreed Order, wishes to waive a formal adjudicative hearing and thereby informally dispose of the issues without a formal adjudication. Respondent agrees to comply with the terms and conditions set forth in this Order. In waiving an adjudicative hearing, Respondent acknowledges his understanding of the alleged violations and the adequacy and sufficiency of the notice provided to him.

Upon the recommendation of the Enforcement Committee and with Respondent’s consent, the Board makes the following Findings of Fact and Conclusions of Law and enters this Agreed Order as set forth below.

Findings of Fact

1. On June 24, 2004, the Board received information from Noor Janjwani, a pharmacist at Walgreens Pharmacy, Flower Mound, Texas, alerting the Board to the fact that Angus MacDonald, D.V.M., Dallas, Texas, could be diverting controlled substances (hydrocodone) to personal use. Prescriptions were noted for the dogs “Rudy” Cox and “Gala” Ortiz. “Gala” was owned by Miguel Ortiz, a veterinary technician at Dr. McDonald’s clinic, and “Rudy” was a dog adopted from Dr. MacDonald’s daughter Tabitha Cox.

2. During an interview with Board investigator Dennis Barker and DEA investigator Zoraida Gonzalez, Dr. MacDonald admitted to diverting hydrocodone/apap 10/325, for his own use on numerous occasions. He stated that the prescriptions were not noted in the dogs’ medical records or reflected in his controlled substances log book. In addition to securing hydrocodone from Walgreens, Dr. MacDonald also bought the drug from Miller Veterinary Supply Company and Eckerd Drug. From January, 2004 through June, 2004, Dr. MacDonald received through prescriptions approximately 476 tablets of hydrocodone/apap 10/325. Dr. MacDonald attributed his use of hydrocodone to back pain.

3. On June 30th, investigators Barker and Gonzalez interviewed Dr. MacDonald’s wife. She confirmed that Dr. McDonald diverted drugs for his own use. Mrs. MacDonald provided investigators with a copy of an invoice for hydrocodone dated June 11, 2004, from Miller Veterinary Supply Company.

4. On June 30th, Dr. MacDonald voluntarily surrendered 46 tablets of hydrocodone to investigators Barker and Gonzales, and flushed them down the toilet. All other controlled substances, including 1004 ml of ketamine, were also supposedly destroyed. Dr. MacDonald surrendered his DEA controlled substances registration. On July 1st, investigator Barker coordinated with Dr. Herbert Munden, M.D., regarding Dr. MacDonald’s drug diversions. Dr. Munden indicated that he would contact Dr. MacDonald about entering a treatment program.

5. On July 28, 2004, Jennifer Houck, D.V.M., contacted the Board about Dr. MacDonald. She reported that while she was working as a relief veterinarian at Dr. MacDonald’s clinic during the week of July 19th, she discovered the existence of Telazol, Phenobarbital, and Ketamine at Dr. MacDonald’s clinic. Employees of the clinic told Dr. Houck that they had hidden Ketamine after June 30th, and that Dr. MacDonald self-administered Phenobarbital to minimize the effects of withdrawal from hydrocodone. Dr. Houck was also told that Miguel Ortiz, Jr., a veterinary technician, was diagnosing animals and performing medical procedures on animals during office hours.

6. On August 6, 2004, Board investigator Dennis Barker and DEA investigator Zoraida Gonzalez interviewed Maria Alba, Dr. MacDonald’s receptionist, and Mr. Ortiz. These employees confirmed the statements of Dr. Houck, including the allegation that Mr. Ortiz diagnosed animals and performed vaccinations without supervision by a veterinarian. The investigators discovered drugs on the premises, including Phenobarbital and Telazol. Dr. MacDonald’s wife was interviewed and she produced a bag of controlled substances that had been delivered to the MacDonald residence by Mr. Ortiz after June 30th.

7. On July 2nd, Dr. MacDonald was apprehended by officers of the Lewisville Police Department and charged with driving while intoxicated. Following his release from jail, Dr. MacDonald entered a Georgia facility for treatment of prescription pain killer abuse. Dr. MacDonald reported that he successfully completed the 14-week program. Because he was in the recovery program, Dr. MacDonald was not available for interviews by Board and DEA investigators on August 6th. Dr. MacDonald is currently practicing veterinary medicine without controlled substances.
