DOCKET NO. 2013-141

TEXAS STATE BOARD OF
VETERINARY MEDICAL EXAMINERS

IN THE MATTER OF	§	TEXAS BOARD OF
THE LICENSE OF	§	VETERINARY
GLEN A. CAMPBELL, D.V.M.	§	MEDICAL EXAMINERS

AGREED ORDER

On this the 22 day of October, 2013 came to be considered by the Texas Board of Veterinary Medical Examiners (Board) the matter of the license of GLEN A. CAMPBELL, D.V.M. (Respondent). Pursuant to Section 801.408, Texas Occupations Code and Board Rule 575.27, an informal conference was held on July 15, 2013. The Respondent appeared at the informal conference, and was not represented by counsel. The Board was represented at the conference by the Board's Enforcement Committee.

Respondent, without admitting the truth of the findings and conclusions set out in this Agreed Order, wishes to waive a formal adjudicative hearing and thereby informally dispose of the issues without a formal adjudication. Respondent agrees to comply with the terms and conditions set forth in this Order. In waiving an adjudicative hearing, Respondent acknowledges his understanding of the alleged violations and the adequacy and sufficiency of the notice provided to him.

Upon the recommendation of the Enforcement Committee and with Respondent's consent, the Board makes the following Findings of Fact and Conclusions of Law and enters this Agreed Order as set forth below.

Findings of Fact

1. Respondent, Glen A. Campbell, D.V.M. of Garland, Texas, holds Texas veterinary license 6791.
2. The Board has jurisdiction over the subject matter and Respondent. Respondent received notice, which may be required by law and by the rules of the Board. All jurisdictional requirements have been satisfied under Tex. Occ. Code Ann. Title 4 ("Act"). By entering into this Agreed Order, Respondent waives any defect in the notice and any further right to notice and hearing under the Act; Tex. Gov't Code Ann. §§ 2001.051-.054; and the Rules of the Texas Board of Veterinary Medical Examiners ("Board Rules") (22 Tex. Admin. Code, Chapter 575).

3. On November 28, 2012, Katrina Chidester presented her six-year-old female Blue Heeler named Roxy to Respondent at the VCA Buckingham Animal Hospital ("Clinic") in Garland, Texas for treatment of injuries sustained during a dog fight.

4. Respondent examined Roxy, and found a two-inch laceration on her left shoulder, a swollen laceration on her right rear hip, and several puncture wounds on her right inside thigh, right rear hip, and left front leg. Respondent sedated Roxy to clean and suture her wounds. At 5:00 pm, Respondent found that Roxy was bright, alert, with pink mucous membranes and a normal capillary refill time.

5. Ms. Chidester arrived at the Clinic around 5:00 pm to pick up Roxy. When Respondent brought Roxy out to Ms. Chidester, Respondent was using a towel sling to support Roxy's back end and allow her to walk. According to Ms. Chidester, Roxy's wounds were still bleeding and her gums appeared pale. Ms. Chidester raised these concerns with Respondent, but he told her that Roxy was fine.

6. On the way home, Roxy began breathing heavily and vomiting. The vomit looked black to Ms. Chidester. Ms. Chidester returned to the Clinic so that Respondent could examine Roxy and the vomit. Respondent examined the vomit, and told Ms. Chidester that it did not contain blood. Respondent's patient records do not reflect Ms. Chidester's return to the Clinic, and do not contain any details necessary to substantiate his examination of either Roxy or her vomit.

7. Before Ms. Chidester could get home, Roxy began experiencing uncontrollable bowel movements, and continued having uncontrollable bowel movements after they arrived home. Ms. Chidester saw bright red blood in Roxy's stool, and called Respondent. Respondent told her it was likely stress colitis, and to bring Roxy back to the Clinic if there was still blood in her stool the next morning. Respondent's patient record does not contain any note of Ms. Chidester's phone call, or of his advice and diagnosis.

8. Roxy's condition continued to worsen. Roxy was very thirsty, unable to get comfortable, had very pale gums, and was breathing heavily. Ms. Chidester called Respondent and reported these symptoms. Respondent told her that he believed Roxy was just stressed out from the procedure and experiencing after-effects of the anesthesia. Respondent's patient record does not contain any note of Ms. Chidester's phone call, or of his advice and diagnosis.

9. Roxy quickly became unresponsive. Ms. Chidester rushed Roxy to Brian Mountain, D.V.M. at the Emergency Animal Clinic in Dallas, Texas. Roxy died en route. Dr. Mountain pronounced her dead on arrival at approximately 6:00 pm.

10. Dr. Mountain examined Roxy's body, and noted that the medial right thigh was severely bruised with marked subcutaneous hemorrhage, and blood along the medial thighs where bleeding had occurred while Roxy's legs rested together. Dr. Mountain stated that he believed Roxy's death was likely caused by a crushing reperfusion injury on her right thigh, and Dr.

Mountain's records state that other possible causes of death were shock, blood loss, or an anesthetic reaction.
